Discuss the theme of the design you would like to create with your class. Use your imagination.

1. Decide how much white trimmer is needed for a picture frame.
2. Have stickers and other decorating materials available to share.
3. Divide the trimmer into four equal lengths.
4. Fill the trimmer with stickers, bold colors, and bright designs. Collaborate and share ideas.
5. Use glue or tape to assemble the frames.
6. Allow frames to dry if necessary, then laminate if desired.
7. To hang the frames: punch two holes in the top and attach pipe cleaners, yarn, or ribbon to create a hanger.
8. Use two-sided tape or glue to attach a picture to the back of the picture frame.

Students will love to see their photos or artwork framed by their own creation!
