

Sea Life Syllable Sort

Directions:

Students can practice counting syllables with this sorting game. Label three pockets: *1 Syllable*, *2 Syllables*, and *3 Syllables*. Display them on a bulletin board or attach them to a sheet of poster board. Write words that have one, two, or three syllables on cards. Ask students to read each word aloud and sort the cards into the correct pockets.

Helpful Tip:

Encourage students who need extra support to clap out the syllables for each word before sorting.
